Communication on Progress | UN Global Compact

Submitting an annual Communication on Progress (CoP) is at the heart of a company's commitment to the UN Global Compact and provides valuable information

Наберите "UN Global Compact CoP" в поисковой строке браузера

The enhanced Communication on Progress

We are pleased to announce that our interim digital platform is now available for submissions of the 2023 Communication on Progress (CoP). In light of the technical issues experienced, submitting the CoP is now voluntary for 2023 and no participants will be considered "Non-communicating" or "Delisted" for failure to submit a CoP this year. For those participants wishing to publicly submit a CoP in 2023, the reporting deadline is 31 December.

Benefits of the enhanced Communication on Progress

The enhanced CoP enables participating companies of the UN Global Compact to:

- **Measure and demonstrate progress** to stakeholders and the public on the Ten Principles and the Sustainable Development Goals in a consistent and harmonized way.
- **Build credibility and brand value** by showing their commitment to the Ten Principles and the Sustainable Development Goals.
- **Receive insight, learn and continuously improve performance** by identifying gaps, accessing guidance and setting sustainability goals.
- **Compare performance against peers** with access to one of the largest sources of free, public and comparable corporate sustainability data.

Выберите "CoP Questionnaire"

Please note that all data, including supplemental documentation that was submitted by a participating company through the CoP digital platform, will be made publicly available on the UN Global Compact website. This data may be used by the UN Global Compact in aggregate form to present trends or included in reports about the status of corporate sustainability. The UN Global Compact does not have any responsibility on the accuracy of the data submitted by its participating companies nor on how this public data will be used by other stakeholders.

Only one representative from each company can access the CoP platform and complete the 2023 CoP. Prior to launching the platform via the link below, please designate the one representative from your company who will complete the submission. We apologize for any inconvenience this limitation may cause.

If you have already submitted your Communication on Progress, no further action is required. If you wish to replace your earlier CoP submission, you may re-submit using the interim platform to overwrite the previous report.

Please note that submitting a CoP via the current system (by uploading a report in pdf format onto the GC dashboard) is no longer applicable after 31 December 2022. Starting 2023, participants will need to submit their CoP through the new digital platform and following the new requirements. The digital platform can be accessed by participants starting March 2023. We thank you in advance for your understanding.

Please note: Multiple users per company may access and respond to the 2024 CoP via the digital platform; however, there are restrictions with simultaneous users in the tool.

- Simultaneous users will jump to the page the other user is on. Navigation throughout the survey will not be independent.
- If simultaneous users are on the same page, the first user to navigate off the page will have their answers saved. The second user to navigate away will see a pop-up message saying they are on an outdated version of the page, and the information the second user inputted on that page will not be saved or recoverable.

[+ Complete 2024 Communication on Progress](#)

- Несколько пользователей могут одновременно находиться на страницах анкеты, но навигация по всему опросу не будет независимой.
- Если пользователи одновременно находятся на одной и той же странице, ответы будут сохранены у первого пользователя, который покинет страницу. Второй пользователь при этом увидит всплывающее сообщение о том, что он находится на устаревшей версии страницы, и информация, которую второй пользователь ввел на этой странице, не будет сохранена и не может быть восстановлена.
